

DESN 214:

Project Definition

By: Cristina Simon

Description

The idea I would like to pitch for my initial website design would include something with cats.

I would like to create a fun, interactive blog where users can share their love for cats through photos, art and personal writings.

Purpose Statement

To create an interactive website or blog site that showcases users love for cats in a safe and respectful way.

To allow users to either post or just scroll through the pages of cat themed content.

Personas

Jane Smith

Age: 70

Occupation: Retired

Quiet and reserved
Jane enjoys spending time at home with her cats!
She doesn't know many people who own cats and feels awkward sometimes.

Jill Jones

Age: 40

Occupation: School Teacher

Jill enjoys watching videos of cats on social media. They calm her down after a long day of work.
She has 2 cats of her own.

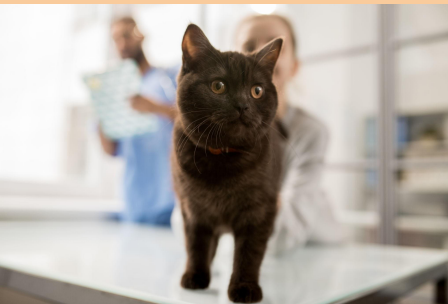

John Wilson

Age: 45

Occupation: Artist

John enjoys scrolling through different forms of media to find inspiration for art. He does art commissions for pets owners and loves cats. He would love to have a site to share his work with others.

Five Functions of Product

1. To build a safe and friendly community through a mutual interest: cats
2. Also allows users to share their artwork (of cats) in a safe space
3. A site where the user can choose to post or just scroll through for down-time
4. A website dedicated solely things cat lover related!
5. Personal information/data is unnecessary

Measures of Success

1. **To build a safe and friendly community through a mutual interest: cats**
Careful monitoring of content being posted
2. **Also allows users to share their artwork (of cats) in a safe space**
Users can promote their artwork and interact with other like-minded artists
3. **A site where the user can choose to post or just scroll through for down-time**
A user friendly website anyone can easily use. Not overly complicated
4. **A website dedicated solely things cat lover related!**
A blog that is meant to spread bits of happiness through the love of cats. Nothing more, nothing less
5. **Personal information/data is unnecessary**
User identifying information is prohibited. The site is only meant to share friendly cat related content

Competitor's Visual Audit

Catster

User friendly,
limited color palette,
links to other social
media, vet care
knowledge, cute
cat icons.

The overall blog
focuses on cat
lovers and solid
advice for cat
owners who may
have questions.
